ABSTRACT

Four separate bibliographies list references regarding infants with such disabilities as blindness, visual impairments, mental retardation, and Down Syndrome. Citations listed include journal articles, books, manuals, and other publications. The first bibliography lists 24 references regarding blindness or visual impairments in infants and ways to work with them. The 55 citations in the second bibliography deal with mental retardation in infants. The third bibliography lists 45 citations dealing with Down Syndrome. The 42 citations in the fourth bibliography deal with language acquisition and childhood development of infants. Materials have publication dates ranging from 1977 to 1987. (CB)

Springfield, IL 62706

The Birth to Three Clearinghouse Bibliography series is designed to be produced upon request and feature materials that are available in the Springfield library. Call numbers are provided to provide easy retrieval by clearinghouse staff and patrons. Materials listed in these bibliographies can be requested by mail, by phone, or in person at the library. Books can be charged for periods of three weeks and can be renewed if not requested by another patron. Articles can be photocopied upon request. These bibliographies will be updated regularly to include new materials as they are received. Phone requests can be made by calling (217)-785-1364 between 8:30 a.m. and 5:00 p.m., Monday through Friday.

The Birth to Three Clearinghouse is a project of the Illinois Public Health Association and is made possible through a grant from the Illinois Governor's Planning Council on Developmental Disabilities.
